Vehicle warranty period:	5 years or 400,000km, whichever comes 1 st
Electric motor warranty period:	5 years or 400,000km, whichever comes 1 st
Powered battery warranty period:	8 years or 640,000km, whichever comes 1 st

Zero Emission Electric Bus

ECO-FRIENDLY

Electric Powered

12.5m Electric City Bus

ZERO EMISSIONS • NO NOISE

Foton Mobility Distribution

Foton Mobility Distribution is an Australian owned, exclusive distributor of a range of World Class Foton New Energy heavy vehicles, sourcing the best available technology to lead the zero emissions transport revolution in Australia.

Foton Mobility Distribution works alongside leading Operators to demonstrate the effective use of New Energy vehicles in the Public transport environment.

We can also supply a range of other Zero Emissions vehicles and technologies, starting with the T5 Electric Truck now - for order and delivery within 3 months and the Eurise D11 Electric Van.

Industry Partnerships

Foton Mobility Distribution is playing a leading role in the transition to Zero Emission transport. We have teamed up with infrastructure developers & training institutions to provide broad expertise to support the roll out of New Energy transport solutions. In concert with its Partners, Foton Mobility Distribution can provide an end to end solution for your Electric and Hydrogen transport requirements.
